

[LenDenClub](#), an RBI-registered NBFC-P2P, is India's pioneer and leader in the Peer-to-Peer (P2P) lending sector. With over 45 lakh+ registered borrowers, 20 lakh+ registered investors, and consistent portfolio performance of 10 to 12% p.a. for the past five years, LenDenClub is also the most trusted platform for P2P lending.

FMPP, i.e. Fixed-Maturity Peer-to-Peer Plan, is a fixed-term, fixed-maturity investment plan designed to stand by LenDenClub's returns proposition of 10 to 12% p.a. even more firmly. The plan's unique hyper-diversification algorithm allocates every investment amount as low as ₹1 per borrower. This way, any NPA is even out on a platform level. Thus, with LenDenClub's FMPP investment plan, one can get not only higher returns due to the aggregator nature of the model but also a non-market-linked investment avenue to invest in for healthy portfolio diversification.
